

INTERPRETATION CENTRE

IN SEVILLE ON THE FIRST SAILING AROUND THE WORLD

The Interpretation Centre on the First Sailing Around the World will be designed as a permanent exhibition space based on experiences.

The visitors will discover the keys to the First Sailing Around the World and the principal Spanish maritime explorations through historical sources and cutting-edge audiovisual and interactive resources.

OBJECTIVES

- To transform the Centre into a meeting place for learning about and showing the First Sailing Around the World and its effect on Universal History.
- To create an Experiential Installation aimed towards all audiences, in contact with local and international scientific institutions and with the rest of the citizens.
- To create a platform to publicize the historic and scientific studies of the First Sailing Around the World and the principal ocean routes that departed from Seville and its river.
